### Product description

High quality mixture of solvents to level the transition at spot repairs.

### Product characteristics

Directed jetspray

Fine spray

As a result of the blending of the overspray, a smooth transition is obtained between the old and the new lacquer

Instant (in)visible result

### Physical and Chemical Characteristics

Contents : 150 ml

VOC-content : Approximately 99,5% w/w

### Usage

**Before use, carefully read the directions on the packaging and act accordingly.**

The aerosol should have room temperature. Best processing temperature 15 to 25°C. Before use, shake the aerosol.

The Spotblender can be applied when the lacquer is tack free.

Spray the surface with spotblender till the overspray blends like a film.

**The drying time depends on the ambient temperature and the humidity of the air.**
